Cross Border

Crossing Borders, Connecting Worlds with Confidence. Our trucking and cross-border services ensure your cargo moves seamlessly, offering both FTL and LTL options for ultimate flexibility.

Warehousing

Strategic storage solutions. Our advanced warehousing services optimize your supply chain, offering secure storage, efficient inventory management, and value-added services.

SOC Services

BOX OPERATOR AGENCY REPRESENTATIVE

A service related to the operation and management of boxes or containers in the process of transporting goods. The representative of this organization or company acts to control and manage these boxes or containers at various stages of the transportation process. This may involve organizing the boxes, improving efficiency in handling goods, or providing services related to boxes or containers during transportation.

Customs Clearance

A service involving the customs clearance process, conducted to ensure that goods pass through customs accurately and in compliance with laws. This includes the preparation of relevant documents, allowing goods to be imported or exported in accordance with legal and trade regulations.

EX-WORK SERVICES

Services related to the process of delivering goods manufactured or assembled at the production facility or factory (Ex-Work). The company provides various services to ensure that the goods are ready for export or import. This may include arranging transportation, managing documentation, or providing services related to the Ex-Work process overall.

NDT and Trading Services

NDT (Non Destructive Testing) and Global trade

expert in providing high quality instrument for NDT (Non Destructive Testing) inspection. We believe that high quality instrument generates the high reliable inspection result.

facilitate seamless global trade by providing top-notch services that connect markets and foster economic growth. We strive to exceed customer expectations through integrity, innovation, and excellence.

Special Equipment Services
